Thanks for the update Fran.

Have a great weekend!

Good morning, Vivian.

We are going through the demonstration package. At this time, we have found some minor comments (typos that will need to be fixed) that we will be getting to you by the end of next week. So far, the technical portion appears to be supportable.

Fran

Subject: Exceptional Events
Importance: High

Greetings!

I attended the Baton Rouge Clean Air Coalition meeting yesterday afternoon and stakeholder members were curious how the review of the exceptional event document for the Dutchtown Monitor was progressing. They understand that the 30 day comment period is underway, but are anxious about any comments Region 6 might have that will work against the tight timeline. Any update would be greatly appreciated.
